

Advertising > Landing Page System And Referral Links

The new GPS Landing Page System allows you to effectively promote your business if you already have a basic internet marketing experience.

We keep adding templates for you to use when we get good results from new ones in our campaigns.

Create the URL you prefer for your landing page and use it as you wish but always strictly without spamming.

At any time, you can see how your campaigns are performing by checking at your [Landing Pages Statistics here.](#)

Bear in mind that these landing pages are always intended as the 1st step of a proven 3-Step funnel, which is built on the following steps:

1. Signup for free as a Clubshop Affiliate.
2. Start Your 30-day FREE GPS Trial.
3. Confirm (Subscribe to) Your GPS.

These three steps are an essential part of the Clubshop Business Cycle that you have studied [in this previous lesson.](#)
