One of the most extraordinary aspects of your GPS Platform is [the C00P Advertising](#) component which works in strict cooperation with another fundamental aspect of your GPS, [the Taproot Networking Technique or TNT](#).

THANKS TO A FEW ESSENTIAL FUNCTIONS; the TNT multiplies the effect of your C00P Advertising component.

- It combines the power of multiple GPS working together to build your Clubshop Mall market.
- It optimizes the distribution of your Clubshop members to help each of them.
- It generates the best communication flow possible with each one of them.

So, C00P and TNT allow you to build your online business month after month basically on autopilot and reduce your role as a Partner to the most pleasant but essential task: building a friendly relationship with all other Clubshop members throughout the official Clubshop's online communities.

The C00P Status Report shown in this video allows you to always have the C00P delivery under control and ([if you have a GPS Pro or higher](#)) to communicate directly with your personally sponsored members.
