

VIP Quick Start Introduction

Welcome to the Clubshop Global Partner System, and congratulations on joining our exclusive VIP community!

VIP Quick Start Introduction

It is highly recommended that you complete the entire e-Commerce Training over the course of the following days and weeks.

However, once you start to receive your first Clubshop Members from the Cooperative Marketing Shares included in your first-month subscription or from any other sources, it is imperative that you begin building a strong and amiable relationship with them within the first 24 hours after they join your team.

To ensure a smooth and successful experience, you must also make sure that your account is properly set up and that you have a good understanding of how to onboard your Clubshop Members effectively.

This approach will ensure that both you and your members will have a positive and motivating experience from the start.

So, let's take advantage of this exciting opportunity and make the absolute most of it!
