

# **Why direct commissions on GPS subscription sales appear as pending?**

## ***Why do direct commissions on GPS subscription sales appear as pending?***

These direct commissions are not available during the month they are generated but only after the end of the month.

This is because we calculate the actual commission total to be paid out for that month at the end.

This is due to the VIP Business Plan, where during a month, you can earn either the total of your direct commissions or the Leadership Income, whichever is higher.

Therefore, these commissions cannot be marked as payable until the end of the month in which they were generated.
