

The fe-Commerce impact on your income

Now let's understand the compounding effect generated by the minimum **spontaneous action** of 100 satisfied fe-Commerce consumers that refer, on average, only 1 Free fe-Commerce Member per month:

Month	Your Global Market of FREE Shopper Members	Each Refers Average	Incoming Monthly Shoppers	Your Income	Average Monthly Commission
-------	--	---------------------	---------------------------	-------------	----------------------------

Above, you see the text columns titles of the table shown in the image below (for easy translation purposes):

Month	Your Global Market of FREE Shopper Members	Each Refers Average:	Incoming Monthly Shoppers	Your Income	Average Monthly Commission:
1	140	1	140	\$140,00	\$1,00
2	280	1	280	\$280,00	
3	560	1	560	\$560,00	
4	1120	1	1120	\$1 120,00	
5	2240	1	2240	\$2 240,00	
6	4480	1	4480	\$4 480,00	
7	8960	1	8960	\$8 960,00	
8	17920	1	17920	\$17 920,00	
9	35840	1	35840	\$35 840,00	
10	71680	1	71680	\$71 680,00	

Table Explanation

In the table above, you see an example of what happens when an existing Clubshop FREE Shopper Member informs 1 person per month, on average, about the fe-Commerce benefits we explained on this page.

In this same example, we consider a \$1 monthly average commission produced by each of them

As you can see, 140 Free Shopper Members referring only 1 new

Shopper during their first month generates 140 additional shoppers in your fe-Commerce Global Market, which brings to 280 the total of your Global Market's Members.

So, in the second month, you have 280 Shopper members referring only 1 new Shopper, which brings to 560 the total of your Global Market's Members.

And so on the following months. The example above shows that based on the average effort of 1 new FREE member per month each (it means someone will refer zero Shoppers, others will refer 2, 3, 10, or hundreds), **during the 8th month, you achieve and overcome your initial goal of 10,000 Members for your fe-Commerce Global Market.**

And, based on the more than realistic \$1 monthly average, your monthly income would surpass your \$10,000 Monthly Passive Income Goal.

Smart TIP: *if a Shopper Member is not sure what to buy among millions of products and services inside the Clubshop Mall, and wants to make it even easier to refer 1 (or more) new Free Shopper Member in a month, they could decide to order one of the beautiful and useful [QR Code customizable items available at The Clubshop Outlet](#). This will result in:*

- *a 10% Cashback,*
- *The "active" Shopper requirement achieved*
- *TNT Commissions for their Global Market Teammates*
- *And, even more important, an easy way to register anybody, even offline, as a Free Shopper Member without the minimum effort.*

NOTE: The next lesson will also explain why we started this projection from 140 Existing Free Shopper Members in your Global Market.
