- [How To Find Infinite Friends with “Post Modeling.”](#)

Your GPS offers you the AI assistance you need to make every step of this niche search process fast and easy 6-step method:

- 1) **[FIND BROAD CATEGORY](#)** – Use the category Finder to get inspiration to find broad categories with loads of activity in any language.
- 2) **[FIND YOUR SUB NICHES](#)** – Use the niche finder to identify niches within the broader category of your choice with substantial traffic potential in any language.
- 3) **[FIND THE PROBLEMS OF YOUR SUB-NICHES](#)** – Once you have identified the sub-niches of your interest, discover what their typical problems are.
- 4) **[FIND THE SOLUTION FOR YOUR SUB-NICHE PROBLEM](#)** – Once you identify the typical problem each sub-niche has to face, generate the solutions here.

- 5) **CREATE ENGAGING POSTS ABOUT THE SOLUTIONS FOR YOUR SUB-NICHES PROBLEMS** – Once you have generated a list of solutions for the problem you identified for your niche, generate the corresponding post here.
- 5 Bis) **CREATE ENGAGING POSTS ABOUT AN INTERESTING TOPIC FOR YOUR SUB-NICHES** – Consistency is the key to your success in becoming a visible and respected Top Contributor in your groups. So, post regularly any kind of content you may consider useful for your niches.
- 6) **REPLY AND ENGAGE WITH THE COMMENTS RECEIVED** – Now, all those people who liked or replied to your content are not “freezing cold contacts” anymore. As they already know who you are, they became warm contacts. You can **start to connect with all of them as you learned in this lesson.**
